Paediatric and Adult Congenital Cardiac Surgeon

CANDIDATE INFORMATION PACK

Creating meaningful and magical opportunities that enrich the health of every young New Zealander
It is our pleasure to invite you to apply for the position of Paediatric and Adult Congenital Cardiac Surgeon at Starship Child Health.

The Green Lane Paediatric and Adult Congenital Cardiac Service is a national service based at the Starship Children’s Hospital. It is the sole provider of cardiology and cardiac surgical services for infants and children with congenital and acquired heart disease in New Zealand and includes the national fetal cardiology service and is the national treatment centre for adult congenital heart disease surgery. The service is committed to providing the best possible outcomes and equitable access at a national level.

There is an active clinical research and audit programme within the department and through collaborative ventures with academic groups nationally and internationally. There is also the potential for furthering translational research in cooperation with leading basic science and bioengineering departments at the University of Auckland.

The scope of the role will be dependant of the skills and experience of the surgeon, and includes a leadership position for a suitably qualified senior candidate.

This position offers a unique opportunity for a paediatric and adult congenital cardiac surgeon to progress their career in a high functioning environment, and hold a senior role in a leading paediatric cardiac centre.

We hope you find this an exciting opportunity to work in a dynamic environment and look forward to receiving your application.
SERVICE OVERVIEW

The Green Lane Paediatric and Adult Congenital Cardiac Service is a national service based at Starship Hospital. It is the sole provider of cardiology and cardiac surgical services for infants and children with congenital and acquired heart disease in New Zealand and parts of the Pacific Basin. In addition the service is the only surgical programme for adult congenital heart disease in the country. Continued improvements in diagnosis and treatment have resulted in an increase in patient population and service size.

Paediatric and Adult Congenital Cardiac Surgery

Paediatric cardiac surgery is undertaken in one of two cardiac operating theatres at Starship Children’s Hospital. Adult congenital cardiac surgery is undertaken by the same surgical team in the Level 4 cardiac operating theatres at Auckland City Hospital (adjoining Starship Children’s Hospital). Postoperative patients are transferred to the Paediatric Intensive Care Unit or in the case of adult patients the Cardiovascular Intensive Care Unit. There are ~400 surgical cases of which 350 include cardiopulmonary bypass. Approximately one half of surgical admissions continue to be for infants aged <1 year, and 15% are adults.

As a national service, many of our patients live outside of the Auckland area. Our cardiologists travel to regional outpatient clinics throughout the country, as well as working closely with local paediatricians and cardiologists.

In addition to New Zealand residents, infants and children are admitted from Pacific Islands where paediatric cardiac surgery is unavailable. These children are sponsored by NZ Aid, their local governments, or non-governmental organisations. The additional volume has allowed the unit to achieve critical mass in a number of staffing and infrastructure areas. Cardiology visits to the Pacific Islands are undertaken to improved the triage process as well as for postoperative surveillance.

The service has a number of interrelated components including:
- Paediatric inpatient (medical and surgical)
- Paediatric and congenital cardiac treatment (surgical and catheter based)
- Paediatric Outpatient
- Peripheral Clinics (paediatric and adult congenital)
- Fetal Cardiology
- Adult Congenital Cardiology
- Cardiac Inherited Disease

Investigative Services include:
- Echocardiography
- Cardiac Catheterisation
- Exercise testing
- Cardiac MRI
- Cardiac CT
- Electrophysiology procedures
- Pacemaker diagnostics
ROLE OVERVIEW

The Paediatric and Congenital Cardiac Surgeon reports to the Service Clinical Director (SCD) of the Paediatric Cardiac Congenital Service (PCCS).

Closing date: 21 July 2019

Leadership role

Key Responsibilities:

• Manage patient care processes and identify opportunities for improvement; including those of multidisciplinary collaboration; in line with service and organisation-wide strategic objectives
• Analyse departmental strengths, weaknesses, opportunities and constraints and act on them to provide optimal care and service efficiencies.
• Ensure there is an effective and efficient process for risk assessment and management.
• Ensure and, where needed, develop and implement sustainable systems for benchmarking clinical and operational performance planning

Key Requirements:

• Record of sustained accomplishments including significant clinical practical experience and excellent surgical results
• Evidence of effective leadership backed by excellent communication skills and collaborative ability
• Ability to implement service delivery plans and achieve short term objective within the strategic guidelines

Consultant Surgeon

Key Responsibilities:

• To provide acute and elective comprehensive consultant Paediatric and Adult Congenital Cardiac Surgical services within a team structure.
• Actively participate in clinical, research and educational activities within the Paediatric and Congenital Cardiac Service.
• Conduct operating sessions, attend ICU ward rounds and manage patients on the cardiac wards as required.
• Participate in the consultant on call roster
• Supervise and teach junior surgical staff, nursing, paramedical and medical students assigned to the surgical team

Key Requirements:

• Significant clinical practice experience and excellent surgical results
• Participate in surgical audit, quality assurance, business meetings, peer review, continuing medical education and clinical research
• Participate in hospital based programmes including accreditation and health and safety.

Further details of the position and the selection criteria are detailed in the attached Position Descriptions

1. Chief Surgeon—leadership role that requires a strategic thinker with more than 10 years experience within paediatric cardiac and adult congenital surgery, proven expertise in transplantation and mechanical support. Leadership experience with the ability to build and develop teams.

2. Consultant Surgeon—mid career position with a minimum of 4 years experience as a consultant.
AUCKLAND, NEW ZEALAND

Rated as the third most liveable city in the world, Auckland is an invigorating mix of natural wonders and urban adventures. Nestled between two harbours, Auckland is New Zealand’s biggest city with a population of 1.5 million. Also known as the City of Sails, Auckland’s CBD is home to the Viaduct Basin that is to host the 2021 America’s Cup. The Viaduct provides for a diverse range of sailing, boating activities, and water sports. Auckland City boasts a number of world-class cafes, restaurants, bars, shopping and art galleries. The surrounding Auckland region, easily accessed through our public transport system, is home to world renowned vineyards, beautiful beaches, pristine rainforests, wildlife encounters and island adventures. A quick 20 minute drive from the CBD will have you at One Tree Hill, one of Auckland’s volcanic peaks. One Tree Hill is home to a number of farm animals, cafes and walking tracks. A leisurely 25 minute stroll from the City will have you at the Auckland Domain, home to the beautiful Winter Gardens and the Auckland War Memorial Museum housed in one of the country’s finest heritage buildings exhibiting award-winning natural history exhibits and galleries that investigate New Zealand’s cultural origins. Take a picturesque walk from the City along the bay and you will reach Kohimarama beach, Mission Bay and St Heliers, beautiful swimming beaches surrounded by cafes, delis, bakeries and ice-cream shops.

New Zealand Weather
While the far north has subtropical weather during summer, and inland alpine areas of the South Island can be as cold as -10°C (14°F) in winter, most of the country lies close to the coast, which means mild temperatures. The average New Zealand temperature decreases as you travel south. January and February are the warmest months, and July is the coldest month of the year.

Auckland Weather
Auckland summer starts late November and averages temperature’s between 20-25 degrees. Autumn falls around March through to May and averages at 17-21 degrees. Winter begins in June averaging at 12-16 degrees and Spring starts around September averaging 16-19 degrees.

# WORKING FOR ADHB – EXPECTATIONS OF EMPLOYEES

## CITIZENSHIP
All employees are expected to contribute to the innovation and improvement of Auckland District Health Board as an organisation as evidenced by:

- Responsible resource utilization
- Modelling of ADHB values in all interactions
- Maintaining standards of ethical behaviour and practice
- Meeting ADHB’s performance standards
- Participating in organisational development and performance improvement initiatives
- Helping to develop and maintain Māori capability in ADHB, including developing our understanding of the Treaty of Waitangi and ways in which it applies in our work
- Raising and addressing issues of concern promptly

## THE EMPLOYER AND EMPLOYEE RELATIONSHIP
We have a shared responsibility for maintaining good employer/employee relationships. This means:

- Acting to ensure a safe and healthy working environment at all times
- Focusing our best efforts on achieving ADHB’s objectives
- A performance agreement will be reached between the employee and their direct manager and/or professional leader containing specific expectations

## CONSUMER/CUSTOMER/STAKEHOLDER COMMITMENT
All employees are responsible for striving to continuously improve service quality and performance. This means:

- Taking the initiative to meet the needs of the consumer/customer/stakeholder
- Addressing our obligations under the Treaty of Waitangi
- Involving the consumer/customer/stakeholder in defining expectations around the nature of the services to be delivered and the timeframe
- Keeping the consumer/stakeholder informed of progress
- Following through on actions and queries
- Following up with the consumer/customer/stakeholder on their satisfaction with the services

## PROFESSIONAL DEVELOPMENT
As the business of ADHB develops, the responsibilities and functions of positions may change. All staff are expected to contribute and adapt to change by:

- Undertaking professional development
- Applying skills to a number of long and short term projects across different parts of the organisation
- Undertaking such development opportunities as ADHB may reasonably require
